<https://fite.jp/home> may also have some cookies for its own analytics i.e. analytics not part of Google Analytics. Such cookies help generate statistics and reports about visitors and their activities on the website or app.

e. How cookies are used for online analytics purposes?

We may use web analytics services on <https://fite.jp/home>, such as those of Google Analytics. These services help us analyse how users use the services, including by noting the third-party website from which you arrive. The information collected by the technology will be disclosed to or collected directly by such service providers, who use the information to evaluate your use of the services. We also use Google Analytics for certain purposes related to online marketing, as described in the following sections.

f. How are cookies used for advertising purposes?

Cookies and other ad technology such as beacons, pixels, and tags help us serve relevant ads to you more effectively. They also help us provide aggregated auditing, research, and reporting for advertisers, understand and improve our service, and know when content has been shown to you. We work with website analytics and advertising partners, including Google Display Network, Facebook, etc. to deliver <https://fite.jp/home> advertisements on third party publisher websites - these partners may set cookies on your computer's web browser. These cookies allow our partners to recognize your computer so that the ad server can show you <https://fite.jp/home> advertisements elsewhere on the Internet, and so that our analytics software can measure your engagement and interactions while using <https://fite.jp/home> services. In this way, ad servers may compile anonymous, de-identified information about where you, or others who are using your computer, saw our advertisements, whether or not you interacted with our advertisements, and actions performed on subsequent visits to <https://fite.jp/home> websites and applications. This information allows an ad network to deliver targeted advertisements that they believe will be of most interest to you, and it allows <https://fite.jp/home> to optimize the performance of our advertising campaigns and the usability of our website. In other words, we use analytics data in concert with data about our online ads that have been shown using the Google Display Network, Facebook for Advertisers, or other online advertising networks. By doing so, we can understand how anonymous users interacted with our website after seeing our ads.

g. What third-party cookies does <https://fite.jp/home> use?

Please note that the third parties (advertising networks and providers of external services like web traffic analysis services) may also use cookies on our Services. Cookies on our sites. Also, note that the names of cookies, pixels and other technologies may change over time.

We use trusted partners to help us service advertising, who may place cookies on your device. We also pull through content from social networks into our own pages, such as embedded Facebook feeds. The social networks, such as Facebook, Google, etc. may themselves also put cookies on your machine. If a user logs into Facebook, Twitter or Google+ via our website, they will leave a cookie on the users' computer. This is the same process as if the user logs into these social networks directly.

We also use Google Analytics on our Services to help us analyse how our Services are used. Google Analytics uses performance cookies to track customer's interactions. For example, by using cookies, Google can tell us which pages our users view, which are most popular, what time of day our websites are visited, whether visitors have been to our websites before, what website referred the visitor to our websites, and other similar information. All of this information is anonymised.

We suggest that you should check the respective privacy policies for these external services to help you understand what data these organisations hold about you and how they process it.

h. What are Web Beacons?

As part of our effort to track the success of our advertising campaigns, we may at times use a visitor identification technology such as "web beacons," or "action tags," which count visitors who have come to our site after being exposed to a <https://fite.jp/home> banner ad on a third party site. Our partners may also use web beacons to collect data in the aggregate as provided by your browser while you are on our site or another site where <https://fite.jp/home> is third party.

By navigating on our site, you agree that we can place cookie and web beacons on your computer or device. If you prefer not to receive web beacons, then you should stop using our site, or consult your browsing settings.
